## PIPELINE EQUITIES

Out of use, idled, and abandoned pipelines cost pipeline companies an estimated 1.1 billion dollars annually.

Much of these costs go to routine maintenance and taxes, but much more comes in the form of relocation for expanding highways, subdivisions and removal for various reasons. The staggering amount of liability a company is exposed to regarding deterioration of coating, pipe migration, and erosion is incalculable.

Pipeline Equities has successfully removed more than six million feet of idled, abandoned lines for pipeline companies over the past 21 years...

**at no cost to the pipeline companies!**

In fact, almost all companies have profited as Pipeline Equities often purchases the lines on an as is basis.

Pipeline Equities is insured, financially responsible and certified in handling whatever environmentally sensitive material might be encountered.

Our reputation is built on exercising care and skill in dealing with landowners, lease holders and environmental officials.

The issues of idled pipelines touch departments dealing with operations, right of way, business development, environmental, safety and particularly tax and legal.

Pipeline Equities can help resolve these profit consuming administrative difficulties.

Yours truly,

David Howell

## PIPELINE EQUITIES

**WANTED TO BUY:**  
ABANDONED, IDLED OR  
UNECONOMIC PIPELINES

Our company is looking to buy or trade for existing pipelines throughout North America and is willing to pay top dollar for certain types of properties.

Please consider this company a buyer for the following:

- Abandoned or **out-of-use** pipelines, preferably 6", 8" or 10" and larger diameters, in-place or for removal.
- Surplus and used pipe in quantity
- Gathering systems
- Poly Pipe (surface)

Our company is insured, financially responsible and exercises care and skill in working with land, landowners and environmental officials.

We are in a position to 'turnkey' excavation, removal, remediation and purchase of the facilities described.

In addition, we buy and sell *operating* crude, product and gas systems.

Sincerely,

**For immediate sale: 160,000 12"  
X-60, .295 W.T. FBE coated  
new mtr.**

David Howell

P.S. We appraise pipelines for tax purposes, either operating or mothballed, and are recognized by taxing authorities on local, state and federal levels.
